# THE BELMONT LOOKOUT

*Find yourself here*

**ST. VINCENT  
& THE GRENADINES**

*The Caribbean you're looking for*

*Gently reconnect to the earth as you gaze into the Mesopotamia Valley from the Belmont Lookout.*

*Let your mind wander beyond the panoramic view.*

*Soak up dizzying extremes of green.*

*The magical shades belong to flora that crawl up the mountainsides to the heavens.*

*Even on sun-drenched days, a light mist lingers.*

*Cool breezes whip to mysterious rhythms. Every gust dances around you. A few reach right down to your soul.*

*This is a gift from Mother Nature, a Caribbean breadbasket. More than that, it's a wondrous memento of a volcanic past that parallels the present.*

## *The Mesopotamia Valley is:*

- a remnant of an extinct volcano
- a major agricultural zone that produces fruit and vegetables
- home to wildlife like agouti, manicou, snakes and countless species of birds

## *Belmont Lookout Facilities*

- 900ft Viewing Platform
- Telescope
- Photographic Map
- Interpretive Signage
- Washrooms
- Parking Facilities

## *Getting There*
